

Global Naturals™

A Healthy Partnership

Ingredients

Aqua (Water), Glycerin, Hydroxyethylcellulose, 1,2-Hexanediol, Caprylyl Glycol, Citric Acid, Panthenol, Tropolone, Biotinoyl Tripeptide-1.

4ml Eyelash Enhancer

ACTIVE INGREDIENTS:

Biotinoyl Tripeptide -1

Panthenol

BENEFITS:

A specialised synthetic molecule containing 3 amino-acid residues, Glycine, Histidine and Lysine and is considered a protein derivative.

Contains Biotin which is essential for cellular growth in the body.

In-Vitro tests show the capability of this ingredient to encourage the synthesis of adhesion molecule Lamin-5 and Collagen IV which both help to firmly anchor the eyelashes so preventing loss.

Lashes will look thicker and longer after 14 days use.

Well-known haircare ingredient and moisturiser which smooths and conditions lashes leaving them soft and lustrous.
